Shivam Saxena

senior software Engineer 1 at HCLSoftware

Noida, Uttar Pradesh, India

Summary

Web Developer with 5 years of experience in designing and developing scalable, high-performance web applications. Skilled in JavaScript, React.js and modern UI frameworks (Tailwind).Passionate about building end-to-end solutions, ensuring clean architecture, security, and performance optimization. Currently exploring microservices, server-side rendering (SSR), GraphQL, and AI-driven backend optimizations to stay ahead in modern development trends.

Experience

HCLSoftware

senior software Engineer 1

July 2025 - Present (1 year 4 months)

Noida, Uttar Pradesh, India

QuEST Global

4 years

Software Engineer

June 2022 - July 2025 (3 years 2 months)

Gurugram, Haryana, India

Designed and developed high-performance, scalable web applications, ensuring seamless functionality across both frontend and backend.

Built efficient and reusable components, optimizing system performance and enhancing user experience.

Developed and integrated secure, high-availability APIs and microservices, improving data flow and system reliability.

Implemented real-time communication features, enabling dynamic and interactive user experiences.

Optimized application performance, reducing load times and improving overall responsiveness.

Established automated deployment pipelines, ensuring smooth releases and minimal downtime.

Ensured cross-platform compatibility and accessibility, aligning with industry best practices.

Collaborated closely with designers, backend engineers, and DevOps teams to deliver end-to-end solutions.

Researched and implemented cutting-edge technologies and best practices, driving innovation and scalability.

Trainee Engineer
August 2021 - June 2022 (11 months)
Gurugram, Haryana, India

Education

University of Petroleum and Energy Studies
Bachelor of Technology -Computer Science , Computer Science · (2017 - 2021)
